# Hanumantha Rao Vulli

Academic CV | Data Engineering & Research Opportunities

Denton, Texas | vullihanumantharao@gmail.com
Portfolio: https://sunnyvulli.github.io/ | GitHub: https://github.com/Sunnyvulli

## Education

**Master of Science in Data Engineering**
University of North Texas, Denton, Texas | December 2024

## Research interests

Data quality and governance; reproducible data workflows; reliable evaluation of applied machine-learning systems.

## Selected technical portfolio

**Mobility Quality Lab** | October 2026
Reference pipeline and local analytics API using 17,379 real UCI hourly observations. Includes data contracts, transactional SQLite loading, input hashes, audit output, six passing system tests, and a reproducible evaluation with three seeds. Local implementation; no production adoption claimed.

**Data contracts and evaluation leakage in historical bike-rental analytics**
Unpublished technical manuscript draft, October 2026. Includes measured results, baseline comparisons, controlled fault injection, reproducibility instructions, and limitations. Not a peer-reviewed publication.

## Teaching materials

Reliable analytics from real observations: SQL/Python lab with learning outcomes, exercises, expected results, answer key, and assessment rubric. Instructional portfolio sample.

## Professional experience

**PRC Cloud Tech, USA | Data Engineer**
January 2026 - Present
AWS ingestion and ETL workflows, reporting SQL, pipeline monitoring, and collaborative troubleshooting.

**Tech Force, USA | Data Engineer**
September 2025 - January 2026
Cloud pipelines, PostgreSQL/Oracle query tuning, data-quality investigation, and Jenkins/Docker delivery support.

**Infosys Now, USA | Data Engineer**
April 2025 - September 2025
Spring Boot services with AWS EC2, S3, and RDS; data validation and workflow documentation.

**DBS Technologies, India | Java Full Stack Developer**
July 2022 - May 2023
Angular features, Spring Boot REST APIs, AWS deployment support, and CI/CD automation.

## Technical skills

Python, Java, SQL, JavaScript, TypeScript; Spring Boot, Angular, Hibernate; PostgreSQL, Oracle, MariaDB; AWS EC2, S3, RDS, Lambda, API Gateway; Docker, Jenkins, Terraform; JUnit, Mockito, Selenium.

## Certifications

AWS Certified Data Engineer - Associate
Oracle Certified Professional: Java SE 17 Developer

## Source note

Education, employment, skills, and certification titles follow the supplied resume. Public credential-verification links were not supplied. Portfolio materials are separately labeled by status; research interests are not enrollment claims.
